

BRANCH DOCUMENT — IRIS-3

Branch: branch_20260512_135359 | Base: main-v1.0

Generated: 2026-05-12 13:53

Decision: GO_WITH_CONSTRAINTS | Confidence: 78%

CHANGE REQUEST

eliminare il pannello solare di destra

CASCADE ISSUES IDENTIFIED

[MAJOR] ISSUE-001 — Power margin reduction

Subsystem: solar | Req: L1-PWR-001 | Type: constraint_violation

Removing the right solar panel reduces power generation capacity, potentially exceeding peak power consumption limits during imaging mode.

[MINOR] ISSUE-002 — Mass reduction below budget

Subsystem: solar | Req: None | Type: constraint_violation

Removing the right solar panel reduces total payload mass, potentially exceeding the mass budget and affecting overall system balance.

[MINOR] ISSUE-003 — Thermal imbalance

Subsystem: thermal | Req: None | Type: constraint_violation

Removing the right solar panel may cause thermal imbalances, affecting temperature stability and potentially violating ΔT limits across orbital cycles.

[MINOR] ISSUE-004 — Structural integrity impact

Subsystem: mechanical | Req: None | Type: reanalysis_required

Removing the right solar panel affects structural balance and may require reanalysis of mechanical constraints, including shock response.

MISSING ECSS TESTS — NOW REQUIRED

ECSS-E-ST-31C §5.4 — Thermal balance test to validate TMM with modified solar panel configuration

Reason: Removing the right solar panel impacts thermal management and requires revalidation of thermal margins.

ECSS-E-ST-32C Rev.1 §9 — Shock test per launcher SRS ICD with modified payload configuration

Reason: Removing the right solar panel affects structural balance and requires revalidation of shock response.

SUBSYSTEM STATUS — UPDATED

Subsystem	Score	Status	Detail	Changed
optical	92%	OK	MTF 0.42 > threshold 0.40	—
thermal	61%	WARN	ΔT 14.8°C — margin < 5%	—
mechanical	88%	OK	1st mode 112 Hz > 80 Hz req	—
structure	91%	OK	Mass 33.8 kg / budget 35 kg	—
solar	89%	OK	Power margin +18%	—
startracker	67%	WARN	Stray light analysis pending	—
dataproc	71%	WARN	Compression ratio TBC	—

AFFECTED REQUIREMENTS

No requirements directly invalidated.
